COMPUTERS IN INDUSTRY

Author index to volume 32

Abu-Rezeq, A.N., *see* Tolba, A.S. 319
Ahamed, S., *see* Liang, M. 219

Baykasoğlu, A., *see* Kayacan, M.C. 181
Bohez, E.L.J. and M. Thieravarut, Expert system for diagnosing computer numerically controlled machines: a case-study 233

Castori, P., Extending MMS event detection to satisfy user-provided predicate-based conditions 1
Chan, W.T., *see* Zhang, Y.F. 95
Changchien, S.W. and L. Lin, A knowledge-based design critique system for manufacture and assembly of rotational machined parts in concurrent engineering 117
Cheok, B.T., Y.F. Zhang and L.F. Leow, A skeleton-retrieving approach for the recognition of punch shapes 249
Chu, P.-Y.V., Y.-L. Hsu and M. Fehling, A decision support system for project portfolio selection 141
Cloutier, L., *see* Lefrançois, P. 197

Dereli, T., *see* Kayacan, M.C. 181
Di Stefano, A., L. Lo Bello and O. Mirabella, Some issues concerning FieldBus design by means of an expert system 305
Du, T.C.-T. and P.M. Wolfe, Implementation of fuzzy logic systems and neural networks in industry 261

Fehling, M., *see* Chu, P.-Y.V. 141
Filiz, I.H., *see* Kayacan, M.C. 181
Fischer, G.W., *see* Yetukuri, B.N. 79
Fuh, J.Y.H., *see* Zhang, Y.F. 95

Gasós, J. and A. Martín, A fuzzy approach to build sonar maps for mobile robots 151
Grabot, B. and P. Huguet, Reference models and object-oriented method for reuse in production activity control system design 17
Graham, J.H., *see* Guan, J. 33
Griffiths, B.J., *see* Wang, Y.S. 69
Gu, P., *see* Maturana, F. 281
Guan, J. and J.H. Graham, An integrated approach for fault diagnosis with learning 33

Hsu, Y.-L., *see* Chu, P.-Y.V. 141
Huguet, P., *see* Grabot, B. 17

Iossifidis, Chr., *see* Karathanassi, V. 169

Karathanassi, V., Chr. Iossifidis and D. Rokos, Application of machine vision techniques in the quality control of pharmaceutical solutions 169
Kayacan, M.C., I.H. Filiz, A.I. Sönmez, A. Baykasoğlu and T. Dereli, OPPS-ROT: An optimised process planning system for rotational parts 181
Kuo, R.-J., A robotic die polishing system through fuzzy neural networks 273

Lefrançois, P., L. Cloutier and B. Montreuil, An agent-driven approach to design factory information systems 197
Leow, L.F., *see* Cheok, B.T. 249
Liang, M., S. Ahamed and B. van den Berg, A STEP based tool path generation system for rough machining of planar surfaces 219
Lin, L., *see* Changchien, S.W. 117
Lo Bello, L., *see* Di Stefano, A. 305

Martín, A., *see* Gasós, J. 151
Maturana, F., P. Gu, A. Naumann and D.H. Norrie, Object-oriented job-shop scheduling using genetic algorithms 281
Mirabella, O., *see* Di Stefano, A. 305
Montreuil, B., *see* Lefrançois, P. 197

Naumann, A., *see* Maturana, F. 281
Norrie, D.H., *see* Maturana, F. 281

Rokos, D., *see* Karathanassi, V. 169

Sönmez, A.I., *see* Kayacan, M.C. 181
Spoerre, J.K., Application of the cascade correlation algorithm (CCA) to bearing fault classification problems 295
Stanojević, M., *see* Vraneš, S. 53
Stevanović, V., *see* Vraneš, S. 53

Thieravarut, M., *see* Bohez, E.L.J. 233
Tolba, A.S. and A.N. Abu-Rezeq, A self-organizing feature map for automated visual inspection of textile products 319

Van den Berg, B., *see* Liang, M. 219
Vraneš, S., M. Stanojević and V. Stevanović, BEST-based expert diagnostic system for the aluminum industry 53

Wang, Y.S., B.J. Griffiths and B.A. Wilkie, A novel system for coloured object recognition 69
Wilkie, B.A., *see* Wang, Y.S. 69
Wolfe, P.M., *see* Du, T.C.-T. 261

Yetukuri, B.N., N.V. Yetukuri and G.W. Fischer, SPAW: A design tool for planning a manufacturing process in a concurrent engineering environment 79
Yetukuri, N.V., *see* Yetukuri, B.N. 79

Zhang, Y.F., J.Y.H. Fuh and W.T. Chan, Feature-based cost estimation for packaging products using neural networks 95
Zhang, Y.F., *see* Cheok, B.T. 249
